1. Executive Summary

Libra Research was engaged by Stornord Capital AS to conduct a pre-acquisition corporate due diligence review on Nordvest Facility AS (the “Subject”), a Drammen-based facility services company under consideration for acquisition. This report is based exclusively on open-source information and public registries available as of June 2026.

The review identifies two material concerns requiring clarification before proceeding to a letter of intent (LOI). First, 33% of the Subject’s parent company (Nordvest Holding AS) is held through a Malta-registered entity^[3] whose ultimate beneficial owner (UBO) has not been publicly disclosed and cannot be fully verified through available registries. OSINT work traces the likely UBO to a Danish national with a prior directorship in a dissolved entity that left unpaid creditors.^[5] Second, the Subject’s CFO held a directorship in a Norwegian company that was struck off the Brønnøysund register with outstanding tax liabilities.^{[4][7]} These findings do not disqualify the transaction but should be addressed through direct disclosure from the vendor prior to signing.

Overall risk rating: **MEDIUM**. No sanctions or PEP matches were identified for any associated person or entity.^{[8][12]} Revenue grew at a compound annual rate of approximately 14% across 2019–2023, while EBITDA margin compressed from 11.4% (2021) to 8.2% (2023) — a trend consistent with the wider Nordic facility-services sector.

KEY FINDINGS AT A GLANCE

UBO of Belvoir Enterprises Ltd (Malta, 33% stake) unverified — **HIGH** risk flag
 CFO Ingrid Bjørnstad: prior directorship in a struck-off entity with outstanding tax debt (2019) — **MEDIUM**
 Resolved labour dispute reported in E24 (2022); no ongoing litigation found — **LOW**
 No sanctions or PEP matches on any associated person or entity
 Revenue CAGR ~14% (2019–2023); EBITDA-margin compression noted 2022–2023

RESEARCH METHODOLOGY

This report is based exclusively on open-source intelligence (OSINT). Sources include national corporate registries (Brønnøysundregistrene, Malta Business Registry, Danish CVR), public court and enforcement records, news archives, international sanctions databases and PEP screening tools. No proprietary or confidential databases were accessed. Every material finding is traceable to a numbered source; full source list at Section 11. Research was conducted between 1–5 June 2026.

2. Scope of Engagement

In scope

- Corporate registry checks (Norway, Malta, Denmark)
- Beneficial ownership and UBO mapping
- Key personnel identification and background review
- Adverse media sweep (2015 – June 2026)
- Sanctions and PEP screening (all major lists)

Out of scope

- Physical site visits or employee interviews
- Access to non-public financial or management accounts
- Legal due diligence (contracts, IP, employment)
- Tax due diligence
- Technical or operational assessment
- Customer or supplier reference checks

- Publicly filed financial accounts (2020–2023)
- Open-source litigation and enforcement record check

This report is based exclusively on open-source information. Libra Research does not warrant the completeness of public registries and recommends that findings be verified through direct disclosure from the vendor where material. This report is intended to complement, not replace, legal and financial due diligence.

3. Company Overview

Legal name	Nordvest Facility AS
Organisation number	913 847 226 ^[1]
Registered address	Nedre Storgate 14, 3015 Drammen, Viken, Norway ^[1]
Date of incorporation	14 March 2013
Legal form	Aksjeselskap (AS)
Industry	Facility services — cleaning, maintenance, property upkeep (NACE 81.10)
Employees	Approximately 52 (FTE, 2023)
Revenue (2023)	NOK 74.3 million ^[2]
Auditor	BDO AS (Oslo) — unqualified opinion, FY2023 ^[2]
Status	Active

Nordvest Facility AS provides integrated facility services to commercial and public-sector clients, primarily in the Viken region, with secondary operations in Oslo and Telemark. Main revenue streams comprise cleaning and janitorial services (approx. 62% of turnover), building maintenance and technical services (approx. 24%), and project-based facility upgrades (approx. 14%). The company holds framework agreements with three municipal clients and two private logistics operators, providing recurring revenue visibility.

4. Ownership Structure & UBO Mapping

4.1 Registered ownership

According to the Brønnøysund Register (Enhetsregisteret) as of June 2026, Nordvest Facility AS is 100% owned by Nordvest Holding AS (org. no. 910 234 781), a Norwegian holding company registered in Drammen.^[1]

BENEFICIAL HOLDER (VIA NORDVEST HOLDING AS)	STAKE	JURISDICTION
Kristian Haugen (natural person)	67%	Norway
Belvoir Enterprises Ltd ^[3]	33%	Malta

Figure 1 — Ownership and beneficial-ownership structure. Red path denotes the unverified 33% Malta-held chain.

4.2 UBO analysis — Kristian Haugen

Kristian Haugen (b. 1971, Norwegian national) is identified as the majority beneficial owner through his direct 67% stake in Nordvest Holding AS.^[4] Haugen serves as Chairman of the Board of both Nordvest Holding AS and Nordvest Facility AS. No adverse media, sanctions matches or PEP designations were identified.^{[8][12]} He holds no other active directorships of note.

4.3 UBO analysis — Belvoir Enterprises Ltd (Malta)

Belvoir Enterprises Ltd is registered with the Malta Business Registry (reg. no. C 74831) as a private limited company.^[3] The registered address is a corporate services provider in Valletta commonly used for nominee arrangements. Under Maltese law, beneficial-ownership disclosure obligations exist but are not consistently enforced or publicly searchable through free-access registries.

OSINT investigation using OpenCorporates,^[4] the Malta Business Registry public records^[3] and cross-referencing of director names identified Lars Mikkelsen (Danish national, b. approx. 1968) as the likely beneficial owner, serving as sole director since incorporation in 2019. Mikkelsen was previously sole director and owner of Mikkelsen Gruppen ApS (CVR 37182946, Denmark), voluntarily dissolved in November 2021.^[5] A review of the Danish company accounts prior to dissolution shows unpaid creditor obligations of approximately DKK 340,000 in the final filing year.^[5]

▲ HIGH RISK FLAG — UNVERIFIED UBO

The UBO of the 33% minority stake (Belvoir Enterprises Ltd) cannot be conclusively verified through public sources. The identified natural person (Lars Mikkelsen) has a prior

association with a dissolved entity that left unpaid creditors. The vendor should be required to provide a formal UBO declaration and supporting documentation prior to LOI.

5. Key Personnel

5.1 Morten Elvestad — Chief Executive Officer

Role	Chief Executive Officer
Nationality	Norwegian
Tenure	Since 2016 (10 years)
Prior experience	Operations Director, ISS Facility Services Norge AS (2010–2016); Regional Manager, Coor Service Management (2006–2010)
Adverse findings	None identified
Sanctions / PEP	No matches ^{[8][12]}

5.2 Ingrid Bjørnstad — Chief Financial Officer

Role	Chief Financial Officer
Nationality	Norwegian
Tenure	Since 2019 (7 years)
Prior experience	Finance Manager, Renhold Service Vest AS (2015–2019); Auditor, PwC Bergen (2011–2015)
Adverse findings	Directorship in Renhold Service Vest AS — struck off Brønnøysund register in August 2019 ^[1] with outstanding tax liabilities of approx. NOK 420,000 ^[7]
Sanctions / PEP	No matches ^{[8][12]}

Bjørnstad joined Nordvest Facility AS in October 2019, two months after the dissolution of Renhold Service Vest AS. No personal-liability finding was identified in available records.^[1] See Recommendation 2.

5.3 Kristian Haugen — Board Chairman / Majority Owner

Role	Board Chairman, Nordvest Facility AS and Nordvest Holding AS
Nationality	Norwegian
Adverse findings	None identified
Sanctions / PEP	No matches ^{[8][12]}

6. Financial Analysis

The following analysis is drawn from publicly filed annual accounts in the Brønnøysund Register (Regnskapsregisteret) for FY2020–FY2023.^[2] All figures in NOK thousands unless stated. Balance-sheet items are reconstructed from filed accounts to surface solvency and liquidity signals; they are indicative and should be confirmed against management accounts in financial due diligence.

6.1 Profit & loss summary

METRIC (NOK '000)	2020	2021	2022	2023
Revenue	48,210	57,340	65,780	74,320
EBITDA	5,300	6,540	5,920	6,090
EBITDA margin	11.0%	11.4%	9.0%	8.2%
Net profit	2,140	2,870	1,960	2,310
Net margin	4.4%	5.0%	3.0%	3.1%
Revenue growth (YoY)	—	+18.9%	+14.7%	+13.0%

Figure 2 — Revenue (bars, left axis) against EBITDA margin (line, right axis), FY2020–FY2023.

6.2 Balance sheet & solvency signals

METRIC	2020	2021	2022	2023
Total assets (NOK '000)	17,360	20,800	25,110	28,050
Total equity (NOK '000)	6,200	8,000	8,100	8,500
Equity ratio	35.7%	38.5%	32.3%	30.3%
Debt / equity	1.8x	1.6x	2.1x	2.3x
Current ratio (likviditetsgrad 1)	1.4x	1.5x	1.2x	1.1x
Auditor remarks	None	None	None	None

6.3 Analysis

Revenue trend. Revenue rose from NOK 48.2m (2020) to NOK 74.3m (2023) — a three-year CAGR of 15.5%, or approximately 14% across the full 2019–2023 window. Growth was driven primarily by two municipal framework agreements added in 2021 and organic volume within existing contracts.^[2] The recurring contract base, estimated at 65–70% of turnover, provides meaningful revenue visibility and reduces customer-concentration risk. Year-on-year growth is decelerating (from +18.9% to +13.0%), consistent with a maturing contract book.

Margin compression. EBITDA margin fell from 11.4% (2021) to 8.2% (2023). Listed peers — ISS and Coor Service Management — reported comparable pressure over the same period, attributable to elevated labour costs following collective wage settlements and to energy-cost

inflation.^[13] The compression therefore appears sector-driven rather than company-specific; nonetheless, the trajectory warrants monitoring, particularly if labour-cost pressure persists into 2025. A downside margin scenario should be modelled in financial DD (Recommendation 4).

Solvency & liquidity. The equity ratio of 30.3% (2023) remains above the ~25–30% threshold generally regarded as adequate for an asset-light services business, but has declined from a 38.5% peak in 2021. The debt/equity ratio rose to 2.3x (from 1.8x in 2020), and the current ratio tightened to 1.1x — current assets only marginally cover current liabilities, indicating that expansion has been financed substantially through working capital and borrowing. No covenant-breach indicators or auditor remarks were identified, and no outstanding tax or VAT liabilities appear in Skatteetaten public records.^{[2][7]} The full debt schedule and any change-of-control provisions in existing credit facilities should be reviewed in legal DD (Recommendation 5).

7. Adverse Media & Reputational Risk

An adverse-media sweep was conducted across Norwegian and international sources — including E24, Finansavisen, Dagens Næringsliv and Aftenposten — covering 2015 to June 2026.

DATE	SOURCE	CATEGORY	SUMMARY
March 2022	E24.no ^[6]	Labour dispute	Dispute between Nordvest Facility AS and an unnamed subcontractor over alleged non-payment of wages for approx. 8 workers across a 3-month period. Company denied liability; matter settled out of court. No further coverage identified.

No additional adverse media was identified. No regulatory sanctions, enforcement actions or court judgments were found against the company or its current directors in the period reviewed.

8. Sanctions & PEP Screening

All identified persons and entities were screened against the following lists as of June 2026: UN Consolidated Sanctions List^[8]; EU Consolidated Financial Sanctions List^[9]; OFAC SDN List^[10]; the Norwegian national sanctions list^[11]; and politically-exposed-persons (PEP) databases.^[12]

PERSON / ENTITY	SANCTIONS	PEP	NOTES
Nordvest Facility AS	None	N/A	
Nordvest Holding AS	None	N/A	
Kristian Haugen	None	None	
Ingrid Bjørnstad	None	None	
Morten Elvestad	None	None	
Lars Mikkelsen (identified UBO, Belvoir)	None	None	Mikkelsen Gruppen ApS dissolved with unpaid creditors — see Section 4.3
Belvoir Enterprises Ltd	None	N/A	UBO unverified — see Section 4.3

No sanctions or PEP matches were identified for any associated person or entity. Note that the unverified UBO of Belvoir Enterprises Ltd means sanctions screening for that 33% stake cannot be considered complete; this is reflected in the HIGH risk rating for ownership clarity (Section 9).

9. Risk Assessment

RISK AREA	DESCRIPTION	SEVERITY	CONFIDENCE	RECOMMENDED ACTION
UBO transparency	33% minority stake held via a Malta entity; UBO not publicly verifiable. Identified person has prior association with a dissolved entity with unpaid creditors.	HIGH	Medium	Require formal UBO declaration + supporting docs from vendor prior to LOI
CFO prior directorship	Ingrid Bjørnstad held a directorship in a company struck off with ~NOK 420k outstanding tax liability (2019). No personal-liability finding.	MEDIUM	High	Raise in management interviews; retain written explanation on file
Labour dispute (2022)	Subcontractor wage dispute reported in E24; settled out of court. No ongoing proceedings.	LOW	High	Confirm no residual liability in vendor warranties
EBITDA margin trend	Margin compressed from 11.4% (2021) to 8.2% (2023). Sector-consistent, but trajectory warrants monitoring.	LOW	High	Model downside scenario in financial DD
Debt / equity ratio	2.3x in 2023, elevated vs prior years; current ratio 1.1x. No covenant breaches identified in public records.	LOW	Medium	Review full debt schedule and change-of-control provisions in legal DD
Sanctions / PEP	No matches for verified persons. Belvoir UBO screening incomplete pending identification.	LOW	Medium	Complete screening once Belvoir UBO is confirmed

Confidence reflects the quality and completeness of available open-source evidence: **High** = verified through multiple independent public sources; **Medium** = partially verified, dependent on vendor disclosure or registration gaps; **Low** = indicative only.

Overall risk rating: **MEDIUM**

The transaction is not disqualified by current findings. The primary condition for proceeding to LOI should be satisfactory UBO disclosure from the vendor regarding the Belvoir stake.
